Sept. 19. It is strongly reported, and from good Authority, that a certain great Man in the Ministry, who not only stands high in the Opinion of the People of Great-Britain, but likewife of the Americans in general, has a Plan to propose, that will, in all Probability, be the Means of restoring a perfect Friendship and Harmony between Great-Britain and her Colonies; which must naturally be the sincere Wish of every loyal Subject to his Majesty.

"There are here continual Signs of War between us and France, chiesty, as supposed, to defend the Rights, Privileges, and Independency of the brave Corsigans.

"It is also rumoured, that a Gentleman, well known the Country, has re-

here for the Good he has done this Country, has received Advice from his Brother at Paris, that a French Man of War (contrary to the Laws of Nations) was Man of War (contrary to the Laws of Nations) was very vigilant for the Departure of a Danish Vessel out of the Harbour of Leghorn, directly went in Pursuit, and took her. The People on board are unknown to us; but it is absolutely Fact, that we are making as much Preparation, as though War was this Minute going to be declared."

It is rumoured that a great Man has of late ftrenuoutly urged the Necessity of a total Change in the Political system, both with Respect to Men and Measures. Some Letters from Paris mention it as a Report, that

France, or the Mediterranean. Sept. 20. The fecret Dispatches, lately received from

America, are not of such a Nature, as was imagined, to require the immediate Meeting of Council.

Orders are sent away, over Land, to Commodore Spry, in the Mediterranean, with positive Instructions, not to suffer any Ships of the British Nation to be stopped, or Tearched, on any Pretence whatever, either by the Genoese, French, or any other Power, in the

Italian Seas. It is thought that the present Situation of American Affairs, will produce some Revolutions as important to

Government, as ever took Place in this Kingdom.

Tis currently reported, that fome material Changes and Alterations in the Ministry will take Place about the Meeting of a certain august Assembly, among which the following have been mentioned: Earl Gower to be Lord Privy Seal, in the room of the Earl of Chatham, who is to refign.

Lord Mansfield to be Prefident of the Council, in

the room of Earl Gower.

Lord Rochford to be Secretary of State, in the room

of Lord Shelburne.
'Tis also imagined that the Lord-Chancellor will re-

fign, and a Lord Keeper be appointed. It is faid that a Stop will be put to the Exportation of Cora from North-America to France, Spain, Portugal, or any of the Mediterranean Markets, except

Gibraltar, Minorca, and Corfica.

By all Accounts it appears to be a concerted Scheme between the House of Bourbon and Austria, to divide the Territories of the Pope between them, and only to leave him a small Principality, without any Power.
When Corsica and the Italian States are ingrossed by

Austria and Bourbon, they will then unite, and fall again on Siletia, which will never be suffered to remain with Prussia. The Dutch will then not be able to withstand the Power of France, while Prussia is engaged with Austria; and, as to the Russians, they may probably, by that Time, he employed by the Poles. gaged with Austria; and, as to the Russians, they may probably, by that Time, be employed by the Poles, Turks, and Tartars.—There is nothing that can stop our approaching Ruin, and save Prussia, Holland and Corsica, but fettling a proper Plan of Government with our American Colonies, and go to War, by Sea only, with France and Spain, by which we destroy their Resources, through the Means of America, who will then curally contribute thereto.

Another Thing we ought to dread, which People are not aware of: The French are encouraging Agriculture all over France, which if they are not diverted from, together with a Toleration, which is in Agitation, will run England; therefore it is the Interest of this Nation to be at War with France, by Sea only, every Seven Years, as the only Means of preferving a

B O S T O N, October 29. The Inhabitants of this Town have been of late greatly infulted and abused, by some of the Officers and Soldiers: Several have been assaulted on frivolous Pretences, and put under Guard, without any lawful Warrant for fo doing. A Physician of the Town, walking the Streets the other Evening, was josled by an Officer, when a Scuffle ensued, he was afterwards met by the same Officer, in company with another, both as yet unknown, who repeated his Blows, and, as it is supposed, gave him a Stroke with a Pistol, which so wounded him as to endanger his Life. A Tradesman of this Town, on going under the Rails of the Common, in his Way home, had a Thrust in the Breast, with a Bayonet, from a Soldier; another Perfon passing the Street, was struck with a Musket; and the last Evening, a Merchant of the Town was struck down by an Officer, who went into the Coffee-House. down by an Officer, who went into the Confee-House. Several Gentlemen following him in, and expostulating with the Officers, were treated in the most ungenteel Manner; but the most attrocious Offence, and alarming Behaviour, was that of a Captain, the last Evening, who, in Company with Two other Officers, endeavoured to persuade some Negro Servants, to ill-treat and abuse their Masters affuring them, that the Solvoured to persuade some Negro Servants, to ill-treat and abuse their Masters, assuring them, that the Soldiers were come to procure their Freedoms; and, that with their Help and Assistance, they should be able to drive all the Liberty-Boys to the Devil, with Discourse of the like Import, tending to excite an Insurrection.
